European Kendo Championship 2026

Montenegro june 2026

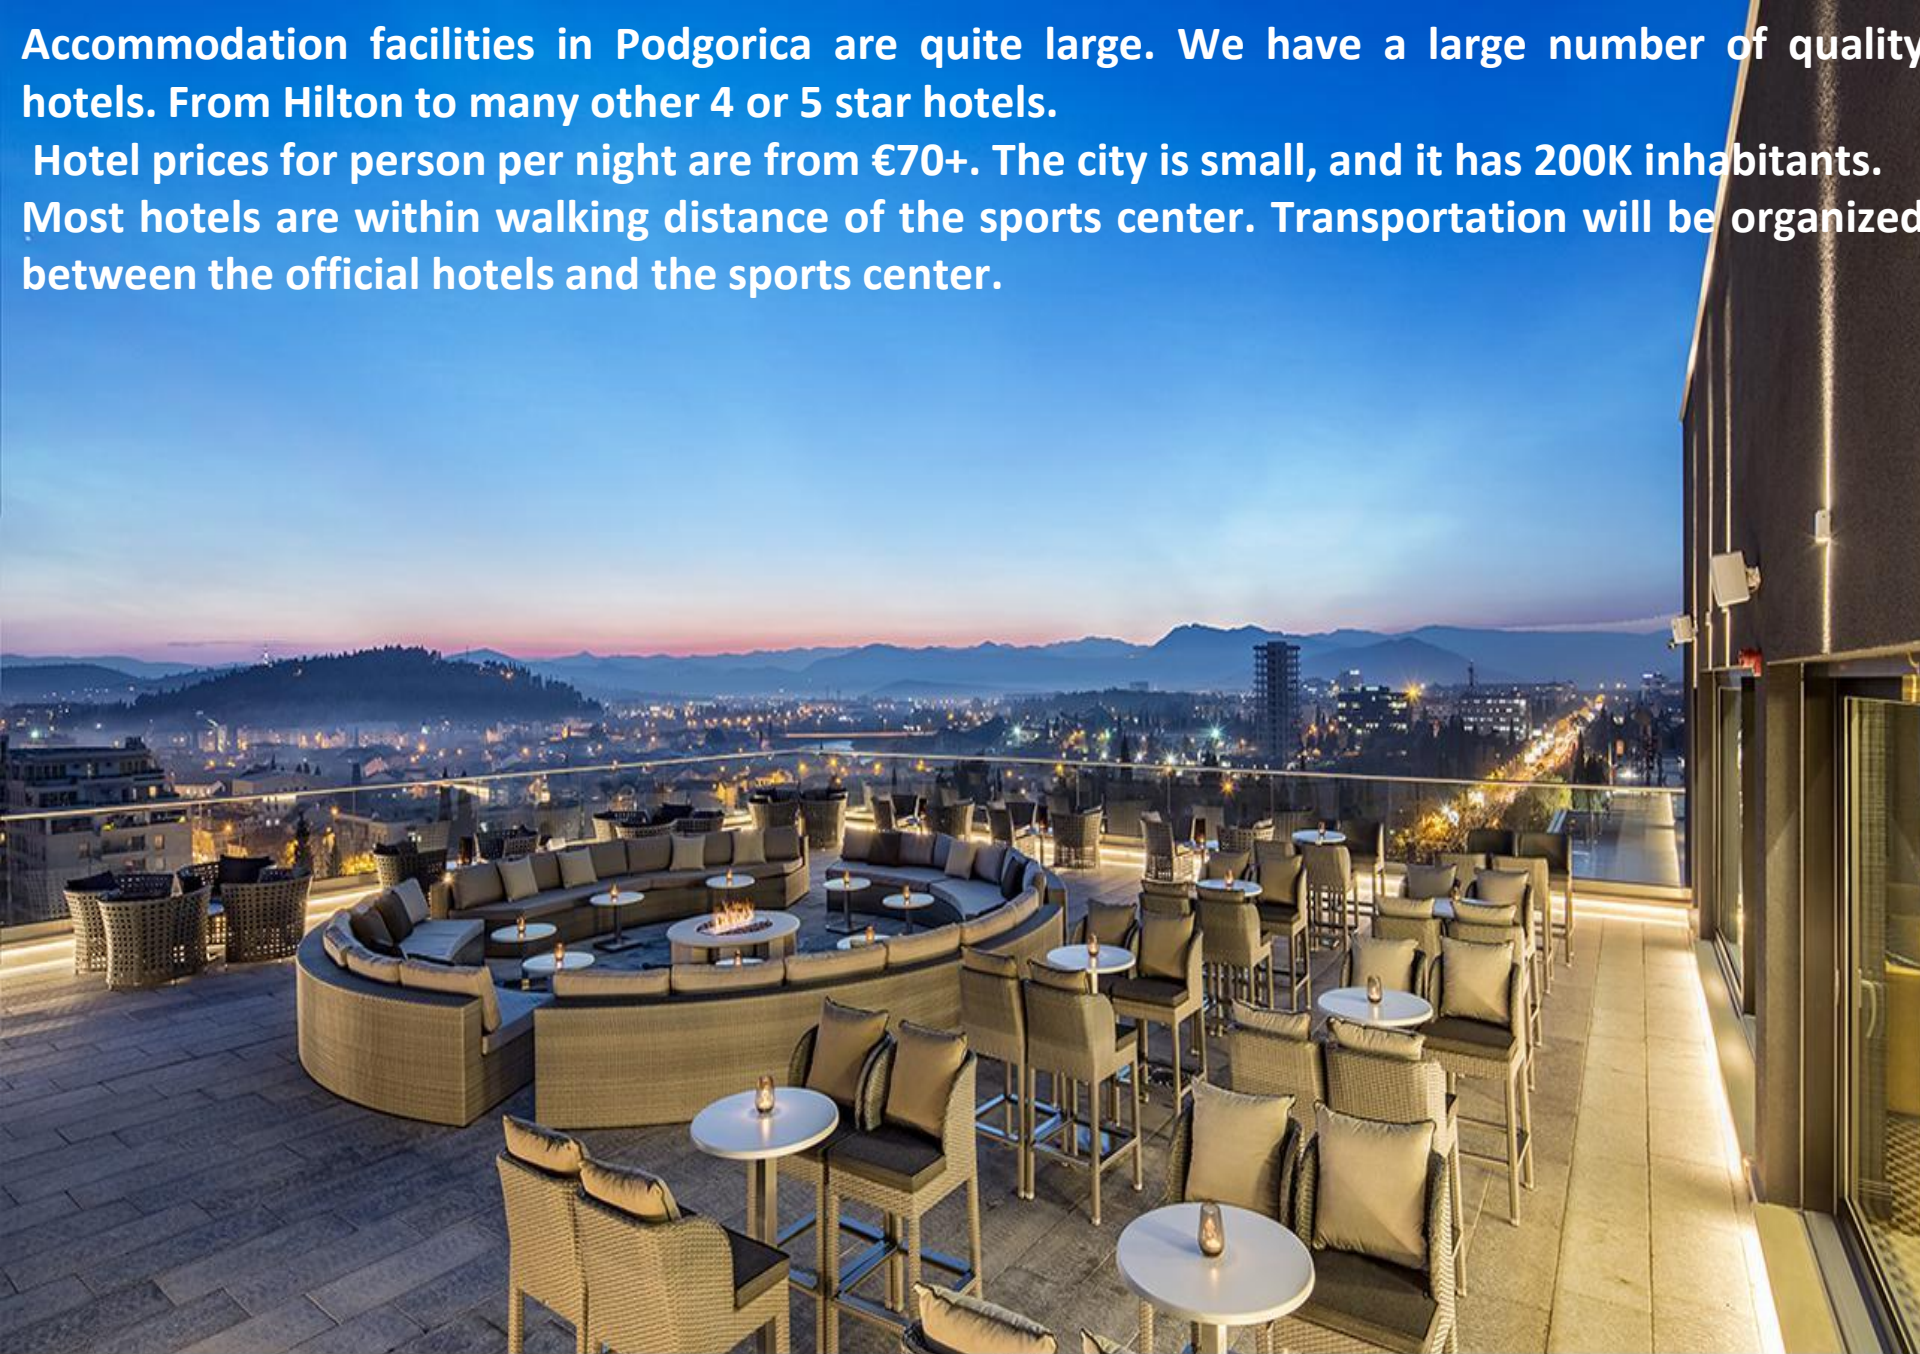

EKC 2026 will be held in Montenegro, in June 2026, in the capital Podgorica. It is located in the central-southern part of the country. It has its own international airport, with many lines connecting it with larger European centers. Low-cost companies also fly to Podgorica. Distance from the airport to the 10 KM or 15 minutes drive.

As an alternative to this airport, there is also the airport in Tivat, which is also connected by international lines, and its distance from Podgorica is 80 KM or 90 min drive. The road infrastructure is good, but not completely covered by the highway. The roads are in good condition.

Accommodation facilities in Podgorica are quite large. We have a large number of quality hotels. From Hilton to many other 4 or 5 star hotels.

Hotel prices for person per night are from €70+. The city is small, and it has 200K inhabitants. Most hotels are within walking distance of the sports center. Transportation will be organized between the official hotels and the sports center.

Hilton - Sky Bar

Morača Sports Center is the largest sports facility in the city. It has a capacity of 6000 spectators as well as a small one auxiliary sports hall where our city Kendo club trains, and which can be available for warming up of competitors. The main hall is large enough to accommodate 4 shiai-jo.

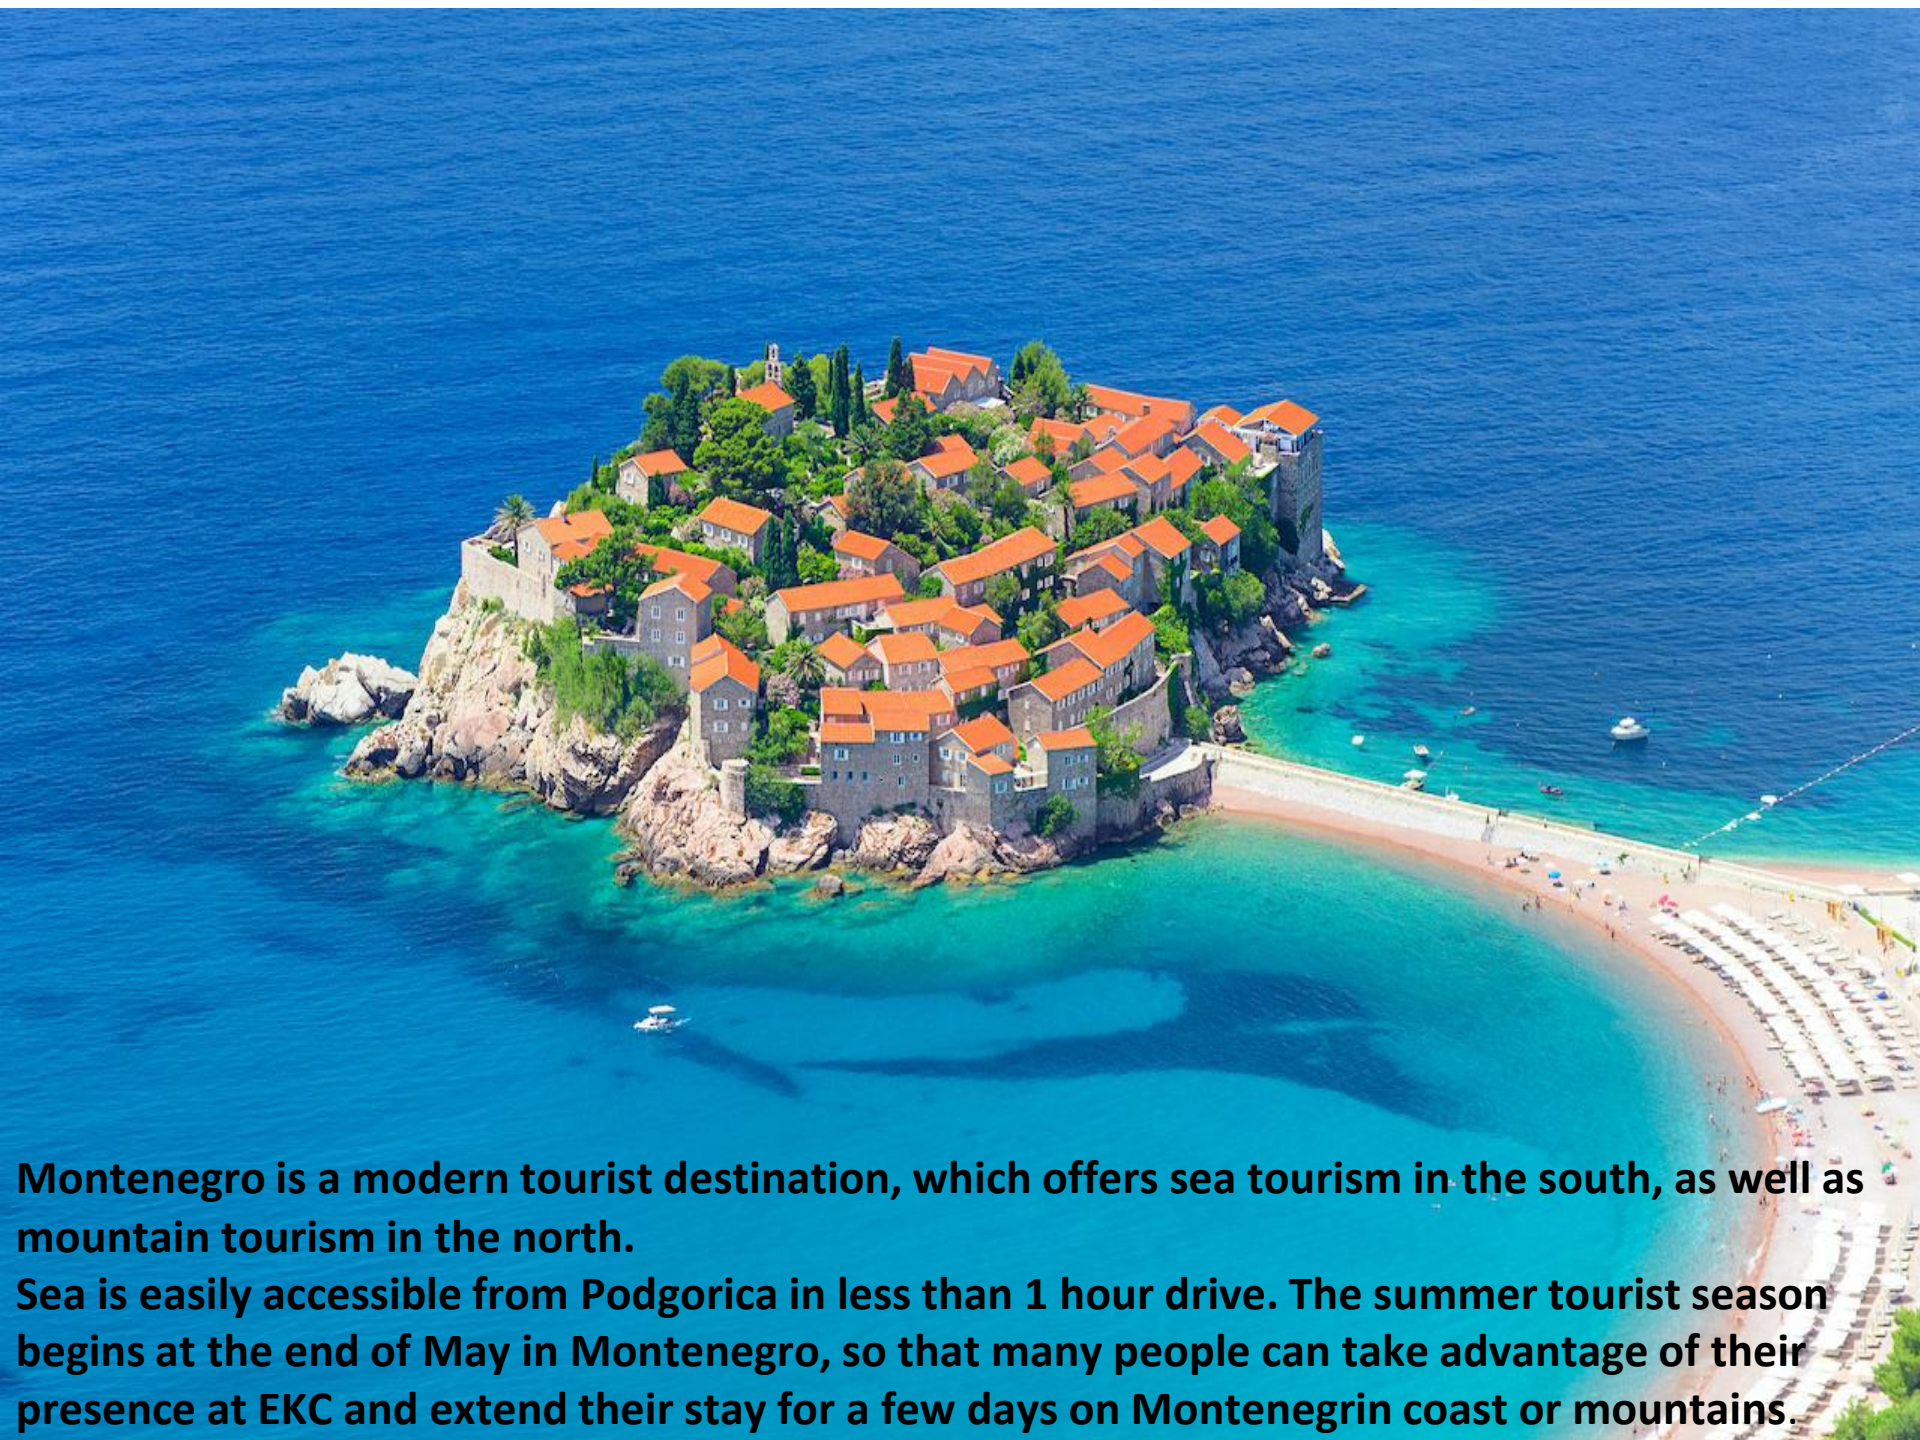

The kendo community is very respected in Montenegro and the city of Podgorica. We have excellent relations with neighboring kendo federations, which will be happy to help in the organization of this championship, first of all by passing on their previous successful experiences, and also theirself human assistance.

Prices in Montenegro are same as the European prices, so we do not expect any financial surprises to EKC participants. Although we are witnessing a certain price inflation, even now it is difficult to predict financial price movements until 2026.

**the currency in Montenegro is the Euro €
taxi transportation around the city costs an average of 5 euros
you can eat in the city in the price range of 10-20 euros
tap water is for drinking**

The city is absolutely safe even at night

Montenegro is a modern tourist destination, which offers sea tourism in the south, as well as mountain tourism in the north.

Sea is easily accessible from Podgorica in less than 1 hour drive. The summer tourist season begins at the end of May in Montenegro, so that many people can take advantage of their presence at EKC and extend their stay for a few days on Montenegrin coast or mountains.

**We look forward to seeing you in
Montenegro in 2026**
